

## QUALITY, SAFETY, AND ENVIRONMENTAL POLICY

Maltexco S.A. is a leading company in the production of malted barley and cereal-based products that meet the needs of the brewing and food industries. The Integrated Management System is based on the principles of Quality, Safety, and Environment, recognizing that the objectives set forth in this policy are consistent with the organization's general objectives, which can only be achieved with the commitment of all Maltexco members.

We are committed to continuously improving our processes, the quality and safety of our products, and our environmental performance through the proper analysis of new opportunities and the development and improvement of our operations. Moreover, Maltexco is committed to complying with legal and regulatory requirements as well as those mutually agreed upon with our customers.

At Maltexco, we are committed to sustainable operations, where the well-being of our workers and surrounding communities is integrated with the development of our own industry. We understand that our present and future must include the efficient and responsible use of natural resources, commitment to environmental protection, including pollution prevention, and the reduction of product loss and waste. This effort is achieved through a deep understanding of all operational aspects, allowing us to implement actions that lead to efficiency and reduced environmental impact. Additionally, we collaborate with our agricultural suppliers to promote best practices and actions that support more sustainable agriculture.

We provide the necessary resources, including training and education for our employees, fostering a culture of quality, food safety, and environmental care.

We have effective internal and external communication channels that allow the organization to respond promptly to any changes that may affect our environmental performance or the quality and safety characteristics of our products.

This policy is well known, applied at all levels of the organization, and available to relevant stakeholders, serving as the foundation upon which our integrated management system is organized.
